

Bonn 16th November 2017 – 3rd CONSORTIUM of MEMBERS

Living Soils Symposium Montreal (Symposium Sols Vivants Montréal)

October 13-15, 2017
At Concordia University

Brief presentation of the event

- Grassroots initiative
- Bilingual event
- Interdisciplinary
- Led by young women
- 35 speakers
- 400 participants
 - Scientists, agronomists, food producers, entrepreneurs, policy makers, general public
 - From across Canada, USA, France, Uruguay, Hong Kong

Outcomes

- Education on how regenerating soil health can mitigate climate change and promote healthy agriculture
- Mobilization of stakeholders from private and public sectors, non-profits, farmers, and general public
- Cross-pollination between participants
- Offsetting of carbon emissions from the event through the installation of an agroforestry system on a farm in Quebec

Launch of Regeneration Canada

- Non-profit with the mission of “facilitating the implementation of regenerative practices in Canada”
- Through:
 - Education and events
 - Field projects with farmers
 - Building a network
